

## A Listing of Repertoire in the Library of the Double Reed Ensemble of Iowa – 1991

by Mark O. Weiger, Iowa City, Iowa

The Double Reed Ensemble of Iowa is a unique ensemble of up to 20 members: 8 oboes, 4 English horns, 1 oboe d'amore, 1 piccolo oboe, 5 bassoons and a contra bassoon. This premiere ensemble leads an exciting and vigorous performance schedule. Under the direction of Mark Weiger, oboe professor at the University of Iowa, the group has presented over 40 concerts in the 1990-91 season. Since its inception in 1989, the ensemble has gained national recognition premiering numerous original compositions and arrangements. The uniqueness of this ensemble lies in its size, scope and innate ability to be totally student generated. Music transcribing, copying, arranging, and cataloging

is carried out, in great part, by the students.

My research for additional repertoire for the ensemble took me to Europe during the summer of 1991 where I was able to locate literature that could not otherwise be found in the states or no longer exists in publication. This has allowed me to compile the following list of our acquired music for double reed combinations of three or more. The intent in printing this list is to open up a forum for international communication about what ensemble literature is available (or, if published, can be made available). Currently, the Double Reed Ensemble of Iowa (DRED) has a listing of well over one hundred other known works for which we are searching.
